

Cartilage Restoration – Patella / Trochlea Rehabilitation Protocol

Stephanie A. Boden, MD

Procedure: Patella / Trochlea Cartilage Restoration

PT Frequency: 2-3 times per week

ROM Restrictions: 0-90 x 2 weeks, then advance as tolerated

Brace: Locked in full extension x 2 weeks, then unlocked 0-90 until 6-8 weeks

Weightbearing: TDWB x 6 weeks, then PWB (25% with progression to full WBAT at 8 weeks)

PHASE I (Weeks 0 – 6): Period of protection, decrease edema, activate quadriceps

- Weightbearing: Touch Down Weightbearing (TDWB) x 6 weeks with crutches and brace
- **Hinged Knee Brace**: Worn at all times (including ambulation and sleeping) locked in full extension. Ok to remove for hygiene and exercises.
- Range of Motion:
 - Weeks 0-2: 0-30°
 - Weeks 2-6: Progress 15° each week until 6 weeks
- Therapeutic Exercises:
 - Weeks 0-2: Quad sets, calf pumps, passive leg hangs to 40°
 - Weeks 2-6: PROM/AAROM to tolerance, gentle patellar mobs, quad/hamstring sets, calf pumps, SLR, side-lying hip and core exercises
- Modalities: Per therapist, including electrical stimulation, ultrasound, heat (before), ice (after)

PHASE II (Weeks 6 - 8):

- Weightbearing: Progress to WBAT
- Hinged Knee Brace: Discontinue when able to perform SLR without extensor lag
- Range of Motion: Progress to full, painless AROM
- Therapeutic Exercises: Continue Phase I, add stationary bike
- Modalities: Per therapist, including electrical stimulation, ultrasound, heat (before), ice (after)

PHASE III (Weeks 8 – 12):

- Weightbearing: Full
- Range of Motion: Full, painless
- Therapeutic Exercises: Advance Phase II exercises, begin closed chain exercises (wall sits, shuttle, mini-squats, toe-raises), begin unilateral stance activities and balance training (week 8)
- Modalities: Per therapist, including electrical stimulation, ultrasound, heat (before), ice (after)

PHASE IV (Weeks 12 – 24):

- Weightbearing: Full
- Range of Motion: Full, painless

 Therapeutic Exercises: Advance Phase III exercises, focus on core/glutes; advance to elliptical, bike, and pool as tolerated, single-leg strength, progress plyometrics and sportspecific training

PHASE V (> 6 Months):

- Gradual return to athletic activity
- Encourage maintenance program
- HOLD ON IMPACT ACTIVITY UNTIL 9 MONTHS
- Return to sport-specific activity when cleared by Dr. Boden at 8-9 months

Official Health Care Provider of the Louisville Cardinals, Louisville City FC, and Racing Louisville FC
